Could you be the next Sports Club Chair?

At the end of September Joe Harvey steps down from the role of Chair of the Stratford Sports Club after 14 years in the post. The Board recognises that the Club and the job of Chair have both grown over the years. The Club now encompasses six sections, towards 1,000 members overall and, within the county, has established an ever growing reputation for its work in youth development. The recent complete refurbishment of the club means that the structure and fabric of the buildings are of a very high quality and have a much higher level of security against future flood risk. We are seeking to hear from suitably experienced and committed members who would welcome the unique opportunity to take this extraordinary sports club onto even greater achievements. In recognition of the time and skills required to Chair the Board and lead the future strategic development of the Sports Club an annual bursary of £5,000 is available to support the post.
